Testing Disclaimer

Santa Margarita Catholic High School offers comprehensive and responsive diagnostic and psychoeducational evaluations through the Auxiliary Studies Program. This assessment forms the basis for eligibility and qualification for special services and/or remediation programs at Santa Margarita.

We strive to only make a recommendation or consider requests for psychoeducational assessments after thoroughly reviewing student records, prior testing, transcripts, teacher/counselor/parent input, etc. Nonetheless, we will always be sensitive to parent needs and wishes and will make exceptions to the assessment policy on a case-by-case basis.

We would like you to be aware of the following:

- There may be occasions when the psychoeducational assessment may not present a diagnosis of a disabling condition.
- The psychoeducational assessment may not determine your student to be eligible for special services, for ASP, or for special accommodations at Santa Margarita.
- It is possible that even with the presence of a disabling condition and/or a diagnosis of an attention deficit, learning disability or emotional intrusion diagnosis, your student's application to receive special accommodations on PSAT, ACT, SAT, AP and IB tests and examinations may not be approved. Those decisions are made by College Board and/or ACT at their own discretion.

ASP TESTING PROCESS

PHASE 1

A standard battery will be administered which will consist of 6 basic tests ranging from 4-6 hours usually scheduled over two school days. This will include an interview with the student that will collect his/her personal history.

Wechsler Intelligence Scale for Children (WISC-V) or the Wechsler Adult Intelligence Scale (WAIS-IV)
Wechsler Individual Achievement Test-III (WIAT-III)
Conners Auditory Test of Attention (CATA)
Conners Continuous Performance Test, Third Edition (CPT-3)
Stroop Color and Word Test (Stroop)
Nelson Denny Reading Test (Nelson-Denny)
Attention Deficit Hyperactivity Disorder Test, Second Edition (ADHDT-2)
Behavior Rating Inventory of Executive Function, Second Edition (BRIEF2)

PHASE 2

If it has been determined that further testing is necessary, any or all of the following may be administered at no additional charge. The following educational supplemental tests can range from 15 minutes to about two hours depending on what tests are deemed necessary. These tests measure central language processing, auditory conceptualization, cognitive functioning, reading skills and vocabulary development.

Cognitive Assessment System, Second Edition (CAS-2)
Lindamood Bell Auditory Conceptualization Test, Third Edition (LAC-3)
Comprehensive Test of Phonological Processing, Second Edition (CTOPP-2)
Wide Range Assessment of Memory and Learning, Second Edition (WRAML-2)
Test of Auditory Processing Skills, Third Edition (TAPS-3)
Test of Visual-Perceptual Skills, Third Edition (TVPS-3)
Gray Oral Reading Test, Fifth Edition (GORT-5)

The following psychological/emotional functioning tests can range from 90 minutes to approximately 3 hours.

Minnesota Multiphasic Personality Inventory (MMPI)
Behavior Assessment for Children, Third Edition (BASC-3)

PHASE 3

Testing Meeting with Dr. Blake Oldfield, Mary Manese and the student's SMCHS Academic Counselor, when available, to discuss test results and recommendations.

PHASE 4

A report will be generated as promptly as possible, however, please be advised that due to the volume and extreme attention necessary in this process, we cannot always guarantee a specific date.

PHASE 5

Your student's academic counselor will be available to assist you in accessing any of the recommendations discussed, including communicating and meeting with your student and/or student's teachers. Subsequent parent meetings will be scheduled as necessary.

If your student has been recommended to participate in the Auxiliary Studies Program, please note that there are tuition fees for ASP participation and a registration process.
