There is no requirement for a COVID-19 vaccine for the 2024-2025 school year

Since January 1, 2016, **Personal Beliefs Exemptions** for currently-required vaccines are no longer allowed in any school, whether public or private.

Medical Exemptions for Required Immunizations - Starting January 1, 2021, all new medical exemptions for school entry must be issued through the California Immunization Registry – Medical Exemption website CAIR-ME. Parents and a California physician can register and create an account in CAIR-ME at any time. Once registered, parents can log in to CAIR-ME to request a medical exemption. Parents take the exemption request number to their child’s physician who can log in to CAIR-ME to issue the exemption. Once the exemption is issued, the physician prints the two-page form and provides a copy to the parents to give to their child’s school.

Medical Exemptions issued before January 1, 2020 by physicians who have been disciplined by their medical licensing board were no longer valid after the beginning of the 2021-2022 school year. To find out if your physician has been disciplined by the Medical Board or Osteopathic Medical Board click on this link:

Medical exemptions issued before 2021 will remain on file at school and do not need to be uploaded into CAIR-ME. Expired ME’s will require a new CAIR-ME.
